Our most popular solution "PEO SERVICES"

Recruitment, Work Permit, Payroll, Office Places/Virtual Offices...

PEO Service, a real opportunity for companies.

If you do not want to create a subsidiary in the short term and you prefer to test the market by outsourcing employment to another qualified company; if you don't want to take risks by hiring local staff then the best solution for you is to outsource hiring over a given period of time and avoid complex administrative procedures.

PEO Service as a solution for the future.

According to an interview with Jean-Hugues Zenoni, founder of the open-work "Le Monde Après": "For companies, [PEO Service](#) is a great solution both for the protection of employees and the ability to develop their business easily.

What is more, the added value of PEO Service is the complete management of the administration: invoicing, accounting, insurance for expats for missions abroad... etc.. "

Advice: choose your partner company carefully.

It is preferable to select a local actor in the country because they have all the knowledge and skills, particularly in relation to the specific regulations. ERAI Turkey supports you in this process. [Contact us for more information.](#)
